ACCESS THE CONFERENCE APP: MOBILE DEVICE, TABLET, & DESKTOP

With so many things happening at #AWRA2022, it can help to have the most up-to-date information about what is coming up next as well as any changes to the conference. By downloading the AWRA conference app to your mobile device, tablet, and/or desktop computer, you will have access to the full conference schedule and receive notifications of important information.

NOTE: The <u>AWRA Conference Code of Conduct</u> covers onsite and app engagement and interactions.

Look for your personal app email from AWRA. The sender is **American Water Resources Association <noreply@rdmobile.com>**. Open it from your mobile device or tablet and tap the Apple App Store (for iOS) or Google Play (for Android) button to download the app named "Engagefully" which is the AWRA conference app. Then tap the 'Access Event on Mobile Device' button to add it to your mobile device. The AWRA Team will be sharing announcements and directing you to the app throughout each day of the conference.

TIP! You can access the same information that's available on the mobile app on your desktop or laptop computer.
