# 2022 GEOSPATIAL WATER TECHNOLOGY CONFERENCE: EVENT IMPACT REPORT

**A specialized conference with a national focus!** The AWRA 2022 Geospatial Water Technology Conference was held in Austin, TX with support from a diverse planning committee from nine states and representing 11 organizations.

*I've been attending the AWRA GWTC since 2006. It brings together a unique mixture of academics, researchers, and public and private sector professionals. - Steve Bourne | Atkins*

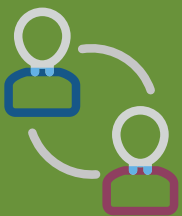

- 120+ Attendees
- 25+ States
- 57+ Universities, Industry, & Government

The opportunity for **Community, Conversation, & Connection** is the heart of an AWRA Conference.

- 1 Opening Networking Reception
- 1 Reception & Symposium Honoring David Maidment
- 1 Awards Luncheon
- 2 Days of Sponsored Exhibits
- 2 Workshops
- 2 Student Competition Winners
- 3 Keynote Speakers
- 6 Networking Breaks
- 18 Concurrent Sessions

## Attendees represent...

Students 20  
Professional Members 37  
Non-Members 57  
1 National Member Partner

from... 22 Universities, 25 Industry/Others, and 10 Government Agencies

*The comprehensive sessions allow us all to be inspired by each other's recent innovations.*

## Of post-event survey respondents...

- 85% say this conference had positive value for cost vs. content.
- 85% say this conference met or exceeded their expectations.
